

RFQ #NNK14504846Q Clarification of Questions and Answers Previously Posted in  
Amendment 2.

In the Questions & Answers, there is a version of Diagram 2 that differs from the Diagram 2 in the Revised Statement of Work.

The Questions & Answers diagram shows what appears to be an additional walkway in each of the 50' x 50' tents (that was not previously present) and it has two arrows showing that the outside walkways shall be placed 10' from the tent walls (also not present on the Revised Statement of Work diagram).

**Question 1:** Are there in fact additional walkways required?

**Answer 1:** No. The requirement to provide flooring is already stated in Item 2. (Competition Tents) Statement of Work.

**Question 2:** Are the outside walkways now required to be 10' away from the side of the tent for their entire length? This would impact the size of the Item 3 tent by 20' and brings into question whether there is adequate room and on what surface the tent legs would now rest (on the East side of the site).

**Answer 2:** On the west side of the site, the outside walkways are required to be 10' away from the side of the tent for their entire length. On the east side of the site, the outside walkways are not required for the entire length. As a minimum it will be required for the first four plywood (or equivalent) sheets starting on the southeast side and moving forward to the northeast side of the tent.

**Question 3:**

What was the award amount for this project last Year I cannot find any information on award #NNK13OL32P.

**Answer 3:** The award amount for NNK13OL32P was \$70,830.00; however this requirement is not exactly the same as the previous procurement.
